William S Patterson School

A photograph of the exterior of William S Patterson School. The building is a single-story structure with light-colored brick or concrete walls. The name "WILLIAM S PATTERSON SCHOOL" is visible on the building's facade. In front of the school is a fenced-in area with snow on the ground. There are several trees, including evergreens and bare deciduous trees, scattered around the school. The sky is clear and blue.

CLANDEBOYE SCHOOL

- It was a stone school, built with two classrooms on the main floor. This school also had a basement which was used for dances, whist drives, and concerts.
- The east side of the school was built from local field stones, and the other three walls were built of stones from Tyndall, Manitoba.

First graduating class was
in 1948.

The School closed in 1969.
